Objective

The overall objective of the conference is to enhance the knowledge of mainstreaming disability theory and practice in compliance with the CRPD among representatives of development cooperation initiatives.

The specific objectives of the activity are:

- To raise awareness about disability mainstreaming in development cooperation;
- To present tools and good practices for disability mainstreaming in development cooperation;
- To identify 2-3 ongoing or future initiatives that can implement the disability mainstreaming approach through, also, support from Bridging the Gap.

Target groups

Representatives of project partner cooperation actors (ADA, AECID, AICS, FIIAPP, MoFA Finland, DEVCO) in charge of projects/programmes or of the drafting thereof.
